2019 Technology Way, Ste. 104

Green Bay, WI 54311

EVERGREENS

Colorado Blue Spruce (2-0, 3-0), *Picea pungens*

Grows to 100 feet and is easily the most popular conifer. They prefer moist, well-drained soil, but are very adaptable to a variety of conditions. This tree requires a fairly large space for growing. Its attractive color, form and tolerance to a variety of conditions make it a popular and wise choice.

9-15" bare root stock \$25 per 25

White Spruce (2-0, 3-0), *Picea glauca*

The striking blue colored foliage has made the White Spruce a popular landscape tree, and is also a favorite holiday tree. White spruce provides food and shelter for many species of wildlife. White Spruce grow in shaded areas but does especially well in sunny, open conditions and can reach heights of 60 to 80 feet.

9-15" bare root stock \$25 per 25

Concolor Fir (2-0), *Abies concolor*

Also known as white fir, this dense pyramidal tree grows to heights of 50 feet. This rapid growing fir tree, once established, is the most drought-resistant of all native firs. Although it can exist on poor, dry sites, it grows most vigorously in moist, well-drained, acid soils in protected locations in full to partial sun.

9-12" bare root stock \$25 per 25

Norway Spruce (2-0, 3-0), *Picea abies*

The Norway Spruce grows to heights of 80 to 100 feet, with a rapid growth rate while young and slowing down as it ages. Does best in well-drained, sandy soils. Prefers full sun. Is excellent as a privacy screen or as a windbreak.

9-15" bare root stock \$25 per 25

TREE PACKS

Wildlife Pack

- 2 White Oak 12-18"
- 2 White Spruce 9-15"
- 2 Domestic Apple 12-18"
- 2 American Plum 12-18"
- 2 Nannyberry 12-18"

10 seedlings bare root stock \$25/pack

Hardwood Pack

- 2 White Oak 12-18"
- 3 Sugar Maple 12-18"
- 3 Whitespire Birch 12-18"
- 2 Sargent Crabapple 12-18"

10 seedlings bare root stock \$25/pack

Evergreen Pack

- 2 White Spruce 9-15"
- 2 White Pine 6-12"
- 2 Fraser Fir 6-9"
- 2 Colorado Blue Spruce 9-15"
- 2 Balsam Fir 3-6"

10 seedlings bare root stock \$20/pack

SUPPLIES

Fertilizer Tablets (20-10-5)

Available: 25 for \$6.50

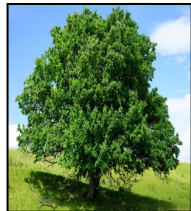

Terra-Sorb™ Synthetic Super Absorbent

Available: 1 ounce for \$2.50

Tubex® Tree Shelters

Available in 3' lengths (stakes included) \$5.00 each

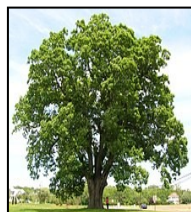

HARDWOODS

Swamp White Oak, *Quercus bicolor*

Swamp White Oak thrives in wet woods, swamps, wetlands, bottomlands, and near bodies of water, although it is very drought tolerant and can be planted in soils that are dry in summer. Swamp White Oak may reach 70 feet tall by 60 feet wide at maturity. Swamp White Oak has crimson shades of fall color.

12-18" bare root stock \$30 per 25

White Oak, *Quercus alba*

This native acorn-producing tree reaches heights of up to 100 feet. The White Oak prefers full sun or partial shade and grows in a variety of soil conditions. Trees 300 years old are not uncommon, and some have been known to live 600 years. Its fall colors range from bright red to dark brown.

12-18" bare root stock \$30 per 25

Red Oak, *Quercus rubra*

This oak tree thrives in rich, well-drained soils and is commonly found throughout Wisconsin. The Red Oak can reach heights of 60-75 feet in full or partial sun. Fall brings a display of russet-red colors. The acorns of the Red Oak, larger than those of any other oak, are very bitter but savored by wildlife.

12-18" bare root stock 30 per 25

Tulip Poplar, *Liriodendron tulipifera*

This is a fast growing tree with distinctive yellow flowers in the spring can reach heights of 80-120 feet. Does best of moderately moist, deep, well drained soils. Does not tolerate very wet or very dry situations. The fruits and twigs have wildlife value in the late fall and winter.

12-18" bare root stock \$30 per 25

EVERGREENS

White Pine (2-0, 3-0), *Pinus strobus*

This fast growing pine is distinguished from all other pines by the fact that its soft bluish-green needles occur in bundles of five. The seeds contained in the cones are eaten by red squirrels and birds. White pine prefers a sunny location and tolerates most moist, well-drained soils. This tree can reach heights of 150 feet.

6-12" bare root stock \$25 per 25

Red Pine (2-0, 3-0), *Pinus resinosa*

The Red Pine stands 60 to 100 feet tall, with a trunk 3 to 5 feet wide. Its needles are four to six inches long and grow in pairs. The Red Pine is native only to North America and is used extensively in reforestation. Red Pine thrives on exposed, dry, acid, sandy or gravelly soils and requires full sun.

6-14" bare root stock \$25 per 25

Balsam Fir (2-0), *Abies balsamea*

The Balsam Fir is a medium-sized tree generally reaching 40 to 60 feet in height. Does best on well-drained, sandy loam soils that are somewhat acid, it is shade tolerant and can establish itself under a canopy of hardwoods and conifers. The Balsam Fir is popular as a Christmas tree.

3-6" bare root stock \$25 per 25

Fraser Fir (2-0), *Abies fraseri*

This tree has flat, soft needles like the Concolor Fir but the Fraser Fir needles are shorter giving the tree a trim crisp appearance. Growing 40 to 60 feet, this tree is popular for landscaping, as Christmas trees and as cover for birds. Prefers sun but will grow on a variety of sites and soils.

6-9" bare root stock \$25 per 25

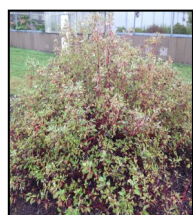

SHRUBS

Sargent Crabapple, *Malus sargentii*

This small, showy tree usually grows not more than 8 feet tall with a rounded canopy that spreads 10 feet or more. The fruit attracts birds and other wildlife but does not usually persist through winter. Grows best in full sun. Prefers an acid rich soil in organic matter but will adapt to most soil types.

12-18" bare root stock \$30 per 25

Red Osier Dogwood, *Cornus sericea*

A large fast growing shrub that can be found in moist to dry woods and thickets, forest margins, and other disturbed areas. Grown best on rich, moist, well-drained soils. Prefers full to partial sun. Will grow to 18 feet in height. Great wildlife species.

18-24" bare root stock \$30 per 25

Nannyberry, *Viburnum lentago*

Good wildlife shrub due to the excellent bird food in its fruit which it bears in late fall. Attractive white flowers bloom in mid May and has a purplish-red fall color. Grows to heights of 15-18 feet.

12-18" bare root stock \$25 per 25

Staghorn Sumac, *Rhus typhina*

This fast growing variety is one of the largest native sumacs reaching up to 25 feet tall and wide. Very adaptable to most growing conditions, from poor soils to drought conditions. Best in full sun and well-drained soil. Does not tolerate wet sites. Excellent food source for birds and wildlife.

12-18" bare root stock \$30 per 25

HARDWOODS

Domestic Apple, *Malus domestica*

Excellent wildlife value—birds, deer, and bear are attracted to this food source. Will attract bees in the spring when the tree is blossoming. Apples may fall in autumn into winter. Will grow to a height and spread of 12 to 20 feet. Will adapt to a variety of soil types, prefers full sun.

12-18" bare root stock \$30 per 25

American Plum (Wild), *Prunus americana*

Excellent food source for wildlife—birds, turkey, deer—especially when used as part of a food plot. Grows as a large shrub or small tree, reaching up to 15 feet. Does well in clay and loamy soils with full to partial sun. Can be used as a windbreak and is effective in stabilizing stream banks and gullies.

12-18" bare root stock \$30 per 25

Sugar Maple, *Acer saccharum*

Voted the Wisconsin State Tree in 1893, the Sugar Maple is a favorite shade tree with reliable fall color. It is valued for its hard, fine-grained wood. Found in the open, may easily grow to 80 feet tall. Sugar Maple thrives when it is planted into rich, moderately deep soils having even moisture coupled with good drainage.

12-18" bare root stock \$25 per 25

Whitespire Birch, *Betula populifolia* "Whitespire"

Extremely fast growing, reaching a height of 30-40 feet with an attractive pyramidal form, pure white bark, and glossy, dark green leaves. Is adaptable to a wide range of soil types. For an attractive birch clump plant 3-5 trees in a group. Resistant to bronze birch borer.

12-18" bare root stock \$30 per 25
